

With financial help, we can do even more

Will you support us so we can set up new projects, and help more people lead greener lives every day? As a not-for-profit organisation we rely on the continued support of local individuals and businesses. Our target is to raise £10,000 for the new Transition Stroud Facilitation Fund, which supports volunteers to deliver projects that benefit communities throughout the area.

I would like to make a monthly donation of:
 £5 £10 £20 £50 other [£]

I would like to make a one-off donation of:
 £10 £25 £50 other [£]

I'm interested in making a donation and would like a Transition Stroud voluntary director to contact me with more details:

.....

Your phone number:.....

Thank you for your generosity – we will be in contact shortly

We're part of a global movement

Transition Stroud belongs to the Transition network – a movement of 1,000 communities and towns in 50 countries around the world. From rain-water harvesting in São Paulo, to community energy-generation in Japan and community-building projects in Australia and South Africa, people are coming together to make a difference.

We are pioneers – in 2007, Stroud became the world's eighth Transition town, out of a concern about the impact of climate change. Our vision is to carry on breaking new ground by delivering exciting projects as we head towards our 10th anniversary.

TRANSITIONSTROUD

An Invitation

Transition Stroud works for a future with more locally grown food, less waste, affordable sustainable energy, better transport and strong communities.

**All are welcome
Everyone is needed**

At our core are active volunteers who organise a wide range of events and projects - we'd like to invite you to find out more and to get involved.

What does Transition Stroud do?

Transition Stroud volunteers run events and projects to help people throughout the local area to lead greener lives every day. We do this through engagement, learning and action, and by sharing our skills.

Regular events

SkillsGain Workshops: learn practical skills, from fixing a bicycle and growing food in a small garden, to easy ways to save energy at home and how to sharpen tools

Repair Café: have electrical and other items fixed in return for a donation

Edible Stroud: plant fruit bushes and trees and other edible plants in public spaces around the town, for all to enjoy

Building Skills Action Group: learn and develop DIY skills

Woodfuel Group: help to manage an area of woodland, and take away logs to use at home

Textiles Group: mend and update clothes, swap fabric, knit and crochet, learn new skills

Film Evenings: our popular event, where a topical environmental film is shown

Book Group: join others to discuss a recent publication

Special events and projects

Open Edible Gardens: meet local people growing food in their gardens and get ideas to repeat at home

Potato Day: discover the wide variety of potatoes available, and buy a selection to grow yourself

Eco Homes Weekend: be inspired by people who are making their houses greener

Climate Change Talks: learn the facts about climate change and join the discussion

Stroud Community TV: make, watch and share videos that celebrate all aspects of life in the Five Valleys

Donate your time

Transition Stroud has exciting plans for the future. Can you offer a professional skill to help us develop? We currently need people with expertise in:

- Marketing
- Publicity
- Fundraising
- Financial management
- Business planning
- Insurance
- Organisational development
- Human resources
